HTML

Creating an HTML document HTML A-1

Understanding HTML	HTML A-2
Planning an HTML Document	HTML A-4
<i>Using a text editor versus a word processor</i>	HTML A-5
Writing an HTML Document	HTML A-6
Previewing and Editing an HTML Document	HTML A-8
Creating Links to Other Web Pages	HTML A-10
<i>Creating absolute and relative links</i>	HTML A-11
Printing an HTML Document	HTML A-12
<i>Changing browser headers and footers</i>	HTML A-13
Concepts Review	HTML A-14
Skills Review	HTML A-16
Independent Challenges	HTML A-17
Visual Workshop	HTML A-20

Formatting Text With HTML HTML B-1

Planning Text Formatting	HTML B-2
<i>Guidelines for Web page formatting</i>	HTML B-3
Creating Ordered Lists	HTML B-4
<i>Customizing list numbering</i>	HTML B-5
Creating Unordered Lists	HTML B-6
<i>Other list types</i>	HTML B-7
Formatting Characters	HTML B-8
Controlling Font Selection	HTML B-10
<i>Serif and Sans Serif Fonts</i>	HTML B-10
Customizing Fonts	HTML B-12
<i>Customizing linked text</i>	HTML B-12
Aligning Text	HTML B-14
Concepts Review	HTML B-16
Skills Review	HTML B-18
Independent Challenges	HTML B-19
Visual Workshop	HTML B-22

Contents

Adding Graphics and Multimedia HTML C-1

Planning Graphics Use	HTML C-2
<i>Minimizing Web page download times</i>	HTML C-3
Inserting Graphics	HTML C-4
<i>Text images</i>	HTML C-4
Specifying Graphic Size	HTML C-6
<i>Other uses of the ALT attribute</i>	HTML C-7
Linking Graphics	HTML C-8
Inserting an Image Map	HTML C-10
Adding a Background Image	HTML C-12
<i>Applying a background color</i>	HTML C-13
Exploring Multimedia Options	HTML C-14
Concepts Review	HTML C-16
Skills Review	HTML C-18
Independent Challenges	HTML C-19
Visual Workshop	HTML C-22

Using Forms to Control Input HTML D-1

Planning a Form	HTML D-2
<i>Web users and privacy</i>	HTML D-3
Creating a Text Entry Field	HTML D-4
Adding Radio Buttons	HTML D-6
<i>More about the CHECKED attribute</i>	HTML D-7
Adding Checkboxes	HTML D-8
<i>Labeling radio buttons and checkboxes</i>	HTML D-9
Creating a Pull-Down Menu	HTML D-10
Adding a Push Button	HTML D-12
<i>Using a graphic as a push button</i>	HTML D-13
Connecting a Form's Back End	HTML D-14
Concepts Review	HTML D-16
Skills Review	HTML D-18
Independent Challenges	HTML D-19
Visual Workshop	HTML D-24

Working with Tables HTML E-1

Planning a Table	HTML E-2
<i>Formatting cell contents</i>	HTML E-3
Creating a Simple Table	HTML E-4
Spanning Rows	HTML E-6
<i>Spanning Columns</i>	HTML E-7

Event Category	Event Name	Length	Notes
ATHLETE Test your skills and your watch and take part in various events.	Beaver Ballet	12 days	Beaver clinics and matches
	Beating in Baseball	9 days	Baseball training camps
Arts Experience the beauty and excitement of performing arts at their best.	YuckYuck	12 days	Parade spectacles
	Thunder Thump	9 days	Country music festivals
Leisure Relax and rejuvenate on quiet days in scenic settings.	Countryside Escape	8 days	Retreats in the countryside
	Urban Oasis	10 days	Retreats in major cities

Formatting Borders	HTML E-8
Modifying Table Backgrounds	HTML E-10
<i>Adding a background image to a table.....</i>	HTML E-11
Changing Table Dimensions.....	HTML E-12
Aligning Table Contents	HTML E-14
Positioning Page Elements	HTML E-16
Concepts Review	HTML E-18
Skills Review	HTML E-20
Independent Challenges	HTML E-22
Visual Workshop	HTML E-24

Controlling Page Layout

Understanding Layout Tools	HTML F-2
<i>Cascading Style Sheets</i>	HTML F-3
Creating a Navigation Bar	HTML F-4
<i>Creating a horizontal navigation bar</i>	HTML F-5
Creating a Frameset	HTML F-6
Targeting Links.....	HTML F-8
Formatting Frame Borders	HTML F-10
Creating a Structuring Table	HTML F-12
<i>Frames vs. Tables</i>	HTML F-13
Adding a Two-Toned Background	HTML F-14
Creating a Template.....	HTML F-16
Concepts Review	HTML F-18
Skills Review.....	HTML F-20
Independent Challenges	HTML F-22
Visual Workshop	HTML F-24

Designing Web Pages

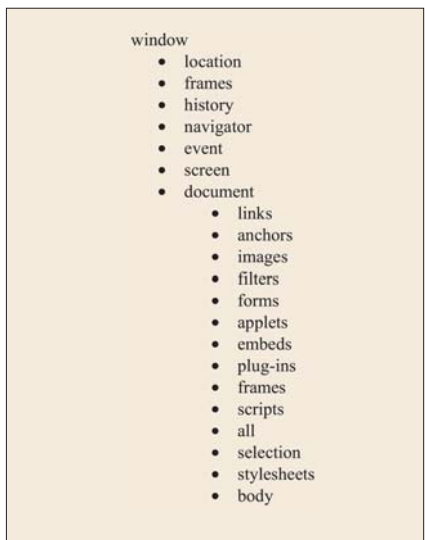

Understanding Design Principles	HTML G-2
Examining Web-Specific Design Issues	HTML G-4
Exploring Cross-Platform Issues	HTML G-6
<i>Designing Web pages for handheld device users</i>	HTML G-7
Integrating Fonts and Color	HTML G-8
<i>Formatting text with style sheets</i>	HTML G-9
Incorporating Images Effectively	HTML G-10
Locating Web Design Resources.....	HTML G-12
Designing an Accessible Web Page	HTML G-14
<i>Physical formatting vs. logical formatting</i>	HTML G-15
Exploring Web Writing Guidelines	HTML G-16
Studying Usability Factors	HTML G-18
Concepts Review	HTML G-20
Independent Challenges	HTML G-22
Visual Workshop	HTML G-24

Contents

Scripting for HTML	HTML H-1
Understanding Scripting for HTML	HTML H-2
<i>Choosing a scripting language</i>	HTML H-3
Creating a Script	HTML H-4
<i>Linking to an external script</i>	HTML H-5
Debugging a Script.....	HTML H-6
<i>Commenting a script</i>	HTML H-7
Understanding Objects	HTML H-8
<i>Naming an object</i>	HTML H-9
Using JavaScript Event Handlers.....	HTML H-10
Creating a Function	HTML H-12
Assigning a Variable	HTML H-14
<i>Manipulating variables</i>	HTML H-15
Creating a Conditional	HTML H-16
<i>Testing multiple conditions</i>	HTML H-17
Concepts Review	HTML H-18
Skills Review.....	HTML H-20
Independent Challenges	HTML H-22
Visual Workshop	HTML H-24

Working with Dynamic HTML (DHTML)	HTML I-1
Defining DHTML	HTML I-2
Understanding the Building Blocks of DHTML	HTML I-4
<i>Proprietary features</i>	HTML I-5
Touring DHTML Pages.....	HTML I-6
Understanding the DHTML Object Model	HTML I-8
Understanding Browser Variability	HTML I-10
Designing DHTML Pages	HTML I-12
<i>Design resources</i>	HTML I-13
Researching Code Architecture	HTML I-14
<i>Code-borrowing etiquette</i>	HTML I-15
Keeping Up with DHTML Changes	HTML I-16
Concepts Review	HTML I-18
Independent Challenges	HTML I-21

Specifying Style Dynamically

	HTML J-1
Understanding Cascading Style Sheets	HTML J-2
<DIV> vs. 	HTML J-3
Creating an Embedded Style Sheet	HTML J-4
Creating a Class	HTML J-6
<i>Creating an ID style</i>	HTML J-7
Detecting Browsers	HTML J-8
<i>Future cross-browser coding</i>	HTML J-9
Showing and Hiding Page Elements	HTML J-10
Changing Font Size Dynamically	HTML J-12
Changing Font Color Dynamically	HTML J-14
Using an External Style Sheet	HTML J-16
Concepts Review	HTML J-18
Skills Review	HTML J-19
Independent Challenges	HTML J-21
Visual Workshop	HTML J-24

Controlling Content Dynamically

	HTML K-1
Understanding Dynamic Content	HTML K-2
<i>Dynamic HTML features are not discrete</i>	HTML K-3
Inserting Content Dynamically	HTML K-4
Deleting Content Dynamically	HTML K-6
Modifying Content Dynamically	HTML K-8
<i>Tool Tips and other floating help</i>	HTML K-9
Incorporating an Advanced Content Function	HTML K-10
Replacing Graphics Dynamically	HTML K-12
Binding Data	HTML K-14
Manipulating Bound Data Dynamically	HTML K-16
<i>Suppressing errors</i>	HTML K-17
Concepts Review	HTML K-18
Skills Review	HTML K-19
Independent Challenges	HTML K-22
Visual Workshop	HTML K-24

Frequently Asked Questions about
Dynamic HTML (DHTML) **Nomad Ltd**

- **What is Dynamic HTML?**
Dynamic HTML (DHTML) describes a set of new technologies for designing Web pages that allow new and more precise formatting features, along with faster access for users.
- **Is DHTML a new language?**
DHTML is not a new language. DHTML is simply a snazzy name for a set of new features that recent Web browsers are equipped to interpret and use. DHTML features work only within the context of a standard HTML document.
- **How does DHTML work?**
DHTML uses two new pieces in concert with HTML. The first is scripts that run on the user's browser, written in a scripting language such as JavaScript or VBScript. The other is Cascading Style Sheets, a new method of specifying exact styles for a Web page's elements.

Vista Hiltop
Tunnel design offers maximum space for very little weight. Mesh ceiling for view and ventilation. Factory sealed, with protected vestibule and interior pockets.
Reserve Hiltop

Vista Peak
Easy setup, 3-season tent for 2. Two doors with vestibules offer easy access and protected storage space. Mesh ceiling panel for view and ventilation. Factory sealed, with vestibule and interior pockets.
Reserve Peak

Nomad Ltd has a tent that's right for you!

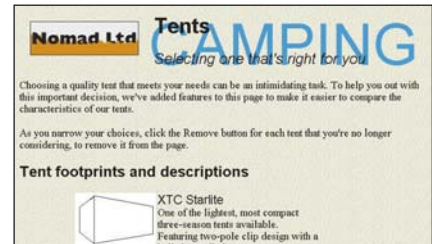

This page describes 6 tent models.

Positioning with DHTML

Understanding DHTML Positioning.....	HTML L-1
Positioning an Element Absolutely	HTML L-2
<i>Cross-browser positioning</i>	HTML L-4
Positioning an Element Relatively	HTML L-5
Sizing an Element Manually.....	HTML L-6
<i>Positioning and sizing using percentages</i>	HTML L-8
Stacking Screen Elements.....	HTML L-9
Adding a Scroll Bar	HTML L-10
<i>Creating a clip region</i>	HTML L-12
Creating a Sidebar	HTML L-13
Incorporating an Advanced Positioning Function	HTML L-14
Concepts Review.....	HTML L-16
Skills Review	HTML L-18
Independent Challenges.....	HTML L-20
Visual Workshop.....	HTML L-22
	HTML L-24

Implementing Advanced DHTML Features

Understanding Advanced Features	HTML M-1
Filtering Content	HTML M-2
<i>Combining filters</i>	HTML M-4
Scaling Content	HTML M-6
<i>Scaling by percent</i>	HTML M-7
Animating Element Position	HTML M-8
Creating 3-D Animation	HTML M-10
<i>Animated GIFs</i>	HTML M-11
Transitioning Elements	HTML M-12
Creating a Slideshow	HTML M-14
Transitioning Between Pages.....	HTML M-16
Concepts Review	HTML M-18
Skills Review	HTML M-20
Independent Challenges	HTML M-22
Visual Workshop	HTML M-24
